

DAIHEN VARSTROJ OFFERS A WIDE RANGE OF PRODUCTS FOR MANUAL AND ROBOT WELDING AND CUTTING

Welding machines

DAIHEN VARSTROJ has more than 5 decades-long tradition of producing and selling manual welding equipment.

We offer wide range of welding machines:

- MIG and TIG industrial welding machines.
- MIG, MMA and TIG welding machines for workshop use.
- MIG, MMA and TIG welding machines for home use.

Robotisation single source equipment

In DAIHEN VARSTROJ we offer diverse and innovative OTC robot equipment in the field of robot welding and robot cutting. We support our partners with consulting, project development, system manufacturing, training, and service.

**MORE THAN 400
ROBOT SYSTEMS**

Collaborative robots

Explore our diverse range of collaborative robot models, offering:

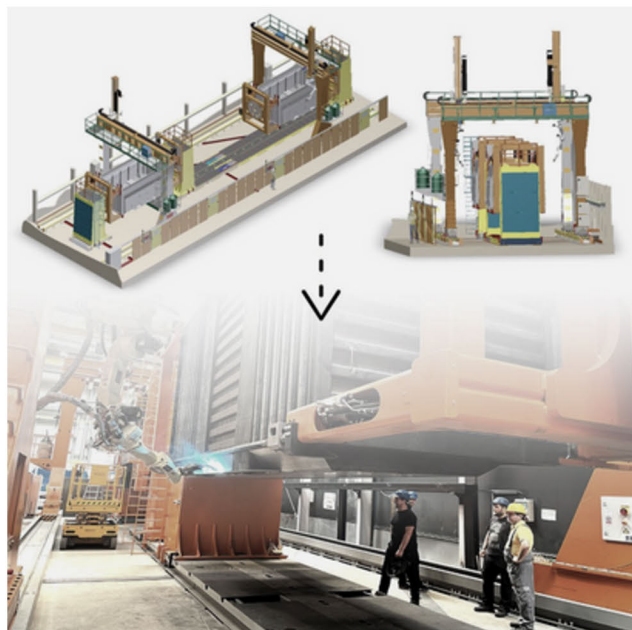

- High trajectory accuracy.
- High noise resistance.
- Versatility for a wide range of applications.
- Exceptional durability.
- Waterproof design.
- Compact and lightweight construction.
- Easy teaching method.

Laser and plasma cutting

We offer a vast spectrum of innovative solutions for cutting, including the latest generation of cutters with programmable 3D head for plasma cutting.

IDEAL PARTNER FROM IDEA TO IMPLEMENTATION AND BEYOND

In DAIHEN VARSTROJ we offer various and innovative solutions in the field of cutting and welding and we place the greatest emphasis on an excellent user experience. In solid cooperation we are with you from idea to preparation of 3D drafts to robot implementation in your industrial unit. The result? Significant increase in productivity and quality of welding at the same time.

CONSUMABLES AND SPARE PARTS

We offer a wide scope of consumables and spare parts from DAIHEN VARSTROJ and OTC, as well as from our partners Hypertherm, Abicor Binzel, and Kjellberg.

LARGEST AND MOST PROMINENT OTC TRAINING CENTER IN EUROPE

- SKILLFUL AND QUALIFIED TEAM OF WELDING AND CUTTING EXPERTS
- OPERATING AND PROGRAMMING COURSES FOR ROBOTIC WELDING CELLS
- ROBOT SAMPLE WELDING OF CUSTOMER PRODUCTS
- COURSES ON USING MANUAL WELDING MACHINES AND WELDING TECHNOLOGY
- INDUSTRIAL WELDING MACHINE TESTING AT CUSTOMER SITES

DAIHEN VARSTROJ - JAPANESE TECHNOLOGY AND SLOVENIAN QUALITY

The company DAIHEN VARSTROJ is engaged in the development, production and sale of welding machines, robotic welding and handling systems and thermal cutting machines for metals. We are part of the global DAIHEN Corporation and we build our strategy on Japanese technology as well as Slovenian creativity and quality. We have the role of the production-development-sales center for Europe. In the field of arc welding, DAIHEN has the most registered patents in the world.
